

Internship

Title : Web Design Intern

Work Site : Halifax

Starting date : Beginning of 2010

Company Description :

Longtail Studios is a videogame developer created by Gérard Guillemot, one of the cofounders of Ubisoft Entertainment. The goal of the company is to create the next generation of videogames based upon characters and story.

Longtail has a total of four development studios: Quebec, Prince Edward Island, Halifax and New York. Longtail creates games for the Nintendo Wii, DS and Xbox 360 consoles as well as for the iPhone and iPod touch platform.

Internship Description :

Under the supervision of the web development manager, the intern will handle technical work related to the design, creation and use of diverse programs associated with management systems used by company administration.

Summary of Responsibilities :

- Participate in the production, development and management of systems,
- Participate in detailed analysis,
- Provide technical support for testing and deployment,
- Participate in the updating of work processes and procedures.

Profile Description :

- Be at least a second year student in a technical college or university,
- Have a good ability to adapt and be autonomous,
- Able to work in teams,
- Able to communicate his/her ideas with ease,
- Be a person that can use his/her creativity well, especially with the implementation of web interfaces,
- Knowledge of the French language is a plus.

Technical Skills Needed :

- Have good knowledge of the Microsoft Windows operating system, the Microsoft Office suite as well as the management of ISS based web servers,
- Have working knowledge of networking,
- Have a good mastery of the management of MySQL data,
- Have essential knowledge of these technologies : HTML, JavaScript, AJAX, CSS, ASP, C#,
- Knowledge and mastery of the .NET Framework (ASP.NET) is a plus,
- Knowledge and mastery of XML, RSS and XSL technologies is a plus,
- Knowledge and mastery of the jQuery library is a plus.
